Projects

The Baton Instrument

Created through Creativitas at MIT: a conductor's-baton-like electronic instrument using four buttons, scroll wheels, and gyroscopes to control music through a synthesizer; premiered in concert.

Auralis

Independent AI-powered piano transcription and practice project that converts recordings into MIDI and readable notation. Developed with feedback from professors, startup CEOs, and students at Stanford and Carnegie Mellon.

Beyond Music

Alpine ski racing (Vermont state level) · Taekwondo (2nd dan black belt) · Squash (junior varsity) · Robotics team (lead builder for movement system and flywheel; state-level tournament; Judges' Choice Award) · Math club · Racquet sports
